CAREER TIMELINE

Experience

2026 — Present • CURRENT

QA Automation Engineer

NICE B.V. — XTest Team - Alkmaar, NL

- Dedicated Test Automation team. Stack: C#, NUnit, Playwright — Claude Code in the daily workflow.
- Writing NUnit skeletons from DTOs/service contracts, POM classes and e2e flows; Claude Code reviews before a manual pass.
- Built and maintain a Claude SKILLS library the team actually uses — reusable prompts that produce code that fits our structure.
- PR reviews start with a Claude Code pass to flag logic gaps before the team sees it.

2018 — 2025

Senior QA Engineer

NICE B.V. - Alkmaar, NL

- Placed in the Fire-Fighting Team within 3 months — customer-facing issues, tight deadlines, constant context switching. Stayed because it suited me.
- Cloud telephony capture & recording (niceincontact / NICE CXone).
- NICE super bonus — twice.
- Built an internal Python + Anthropic API tool that generates test cases from a schema and exports a runnable Postman collection.

2017 — 2018

Software Tester (QA)

ZipAddress Ltd / AFD Software - Isle of Man

- Brought in to improve QA maturity — Scrum ceremonies, IEEE 829 test plans, retrospectives, kick-offs.
- Tools: Mantis, JMeter, Docker, Rancher. A/B testing across agile tooling.
- Offered a management role; declined due to a planned move to the Netherlands.

2015 — 2016

Developer (Back Office)

Derivco - La Lucia, South Africa

- Maintained internal back-office apps — C#, Silverlight, HTML, JS, CSS3, Polymer.
- Bug tracking & collaboration via Confluence, GIT, Charles, Fiddler.

2014 — 2015

Team Lead

Derivco - La Lucia, South Africa

- Strategy, test plans, daily resource allocation and 1-on-1 development catch-ups.
- Tooling across Jira, Mantis, Fogbugz, Redmine, GitLab.

2011 — 2014

Tester / LQA

Derivco - La Lucia, South Africa

- Planning, execution and sign-off for downloadable, browser and mobile applications.
- ISO 9001 and 17025 compliance; checklists & test documentation.
- Nominated for the Derivco 'Sky High' Helpful Hero award. Team super bonus — twice.

AI & CONTINUOUS LEARNING

What I've Shipped

Internal API Test Generator [Python · Anthropic API]

Takes a schema/endpoint, generates test cases dynamically, exports a ready-to-run Postman collection. Cut manual scaffolding time significantly.

Claude SKILLS Library [C# · NUnit · Playwright]

DTO generation, factory setup, helper methods, full e2e boilerplate — reusable prompts the team drops into Claude Code to get a working starting point.

Claude-First PR Reviews [Workflow]

PR reviews start with a Claude Code pass to flag logic gaps and inconsistencies before the team sees it.

Anthropic SKILLjar [6 courses · completed]

Intro to Claude · Prompt Engineering · Tool Use & Function Calling · Building with the API · Agentic Workflows · RAG.

Cloud Native Deployment [Docker · Helm · Tilt · Rancher]

Used Claude to place an application/service on Cloud Native. Created and tested Dockerfiles, Helm charts and Tiltfiles locally on Windows Docker / Rancher Desktop, then validated end-to-end on a remote VM.

EDUCATION

Foundations

ND Information Technology (INF306)

Durban University of Technology · 2003
